

NSA Bike Bike Rack

The Bike Bike Rack is an eye-catching, functional piece of street art.

It welcomes people on bikes and provides them a secure, convenient place to park. Parks two to four bikes.

E-bike Charging Unit Aluminium

8 sided, 140x90mm, Powder Coated according to RAL with 2 sockets IP54.

Length above ground = 850mm with ground anchor. Installation with ground cable and secure with RCCB in Meter Box. Can be combined with the Bikekeeper bike rack.

E-Bike Charging Unit Wallmount Aluminium

8 sided, 140x90mm, Powder Coated according to RAL with 2 sockets IP54.

Length 1450mm.

NSA-ion

The NSA-ion for 2 bikes with 2 charging points for e-bikes.

Provides outstanding stability for the bicycle by clamping the front fork

NSA-E Locker

Charging and storing of the e-bike charger. Including 1 socket (IP55) . Lockable with key or pincode lock. Sizes 300 x 300 x 300mm or 450x450x450mm for indoor use only. Colors of the door: light grey, red, blue of iron grey.

Bike Repair Station

The Bike Repair Station includes all the tools necessary to perform basic bike repairs and maintenance, from changing a flat to adjusting brakes and derailleurs.

The tools and air pump are securely attached to the stand with stainless steel cables and tamper-proof fasteners. Hanging the bike from the hanger arms allows the pedals and wheels to spin freely while making adjustments. The pump hoses are made of rubber and wire mesh for added durability.

Finally, a bike pump for the people. A pump is only useful as long as it works, and the NSA pumps are built for the long haul. Minimal maintenance and burly design ensure these pumps will be ready when you need it. The pump hose is made of rubber and wire mesh for added durability

Airkit 2

Airkit 3

NSA E-Lockerkast

Charging and storing e-bike charger and battery, with 2 sockets IP54.

Locker size 410 x 255 x 550mm (hxxwxd), galvanized and powder coated.

The most most comfortable e-locker location for the cyclist is a dry location.

Can be delivered as: 1 - 4 - 8 and 12 lockers with key lock, pincode lock or deposit or collect lock.

The robust steel NSA E-lockers are made of 1,5—2mm thick steel plate. By the staked lockers there is 25—40mm free space so that the cooling capacity is sufficient. In case of fire this will create a retardant situation. Batteries with a max. length of 540mm can be stored easily.

NSA Lockerkast 2x4

NSA Lockerkast 3x4

NSA Lockerkast 1x4 Pincode

Bikeeper Bike Rack

Minimal distance Bike to Bike 650-700mm. Fixes the bike to both sides. No damage to front wheel and cables or front light. The Bikeeper Mono / Bikeeper Duo / Bikeeper Trio / Bikeeper Quatro and Bikeeper Penta are galvanized or powder coated over galvanized.
